

MAY/JUNE

SUMMERTIME IS IN FULL SWING HERE AT MAGNOLIA.

We just wrapped up our June summer camps. It was great to see several of our beginner riders at these camps.

As the weather is getting extremely hot we encourage all riders to hydrate the night before you plan to ride or attend any camps/clinics. Body Armour, Gatorade, or Biolyte are excellent choices. We understand at times it is a challenge to get children to drink the necessary fluids but it is better to encourage drinking than have them dehydrated, vomiting, or with nose bleeds here at the farm.

A reminder that our summer lesson schedule does change, and we do **take the month of July off from lessons**. So, there will be **no lessons for all riders during the month of July**, we will **return for the 2024-2025 riding season on August 5**.

We will soon talk about lesson time availability for your rider for the 2024-2025 riding season. **If you have any requests, please make them by July 29 to Kim Haley**. We try our best to be accommodating but may not be able to meet all requests because we must consider many factors when placing riders together. We'd like to ask you to be understanding and flexible as we are at capacity currently for lesson students. The current schedule at the end of June will be what is most likely carried over to the new riding season.

If you took a summer break and were **not** on the lesson schedule at any point in June and would like to be on the schedule in August you must contact Kim, otherwise we will assume you are discontinuing lessons.

SHOW CLINIC
